

SANITISE Ireland

ENSURING A **SANITISED ENVIRONMENT**

Clarion[®] 25

NEXT LEVEL FLOOR PROTECTION
FROM THE INSIDE OUT

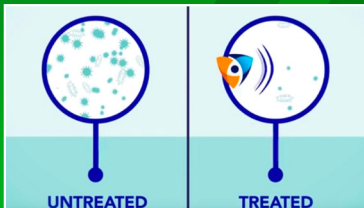

CLARION 25 is a sealer that is applied to a newly cleaned floor that has built in MICROBAN TECHNOLOGY that eliminates over 99.9% of harmful bacteria.

It's the first product of its kind to utilise Microban surface modification technology that embeds an EPA registered antimicrobial into the floor finish. With this technology, Clarion 25 provides live-on floor protection for the finish's usable life.

It comes highly recommended for schools, hospitals, any retail premises, airports and any public areas that contains any porous floor surfaces.

MAJOR BENEFITS OF CLARION 25

- It is a very Versatile product that can be applied to all porous floors: Vinyl; Rubber; Asphalt; Vinyl Composition Tiles; Terrazzo; Concrete
- Hard Surfaces become infused with **MICROBAN TECHNOLOGY** during the application of Clarion 25.
- If Microbes transfer to the treated hard surface, the Microban Antibacterial protection kills the harmful bacterial and prevents the growth of this bacteria by 99.9%
- Clarion 25 with Microban Antimicrobial Floor Finish maintains its high gloss with minimal maintenance, it is an extremely durable floor finish that is ideal when you have limited equipment or manpower for a buffing programme. Maintenance for this product is once every 6 months in high traffic areas.
- The application of this product should reduce the cleaning bills in hospitals and airports etc... by 60%.

PROTECTION THAT LIVES ON
MICROBAN

What is MICROBAN antimicrobial product protection?

Microban antimicrobial product protection is a built-in active ingredient that enables products to resist the growth of microbes such as bacteria, mold and mildew. Microban protection helps products stay cleaner, fresher, and last longer than products with untreated surfaces.

Safeguarding your living & working environment!
