

SANITISE Ireland

ENSURING A **SANITISED ENVIRONMENT**

DISINFECTION & FOGGING

Sanitise Ireland delivers a range of disinfection services to help protect your business against infectious bacteria, viruses and disease. Our professional and highly qualified team work safely, quickly and effectively at a time that suits you to ensure your business's downtime is kept to a minimum.

We also provide a training service to clients who would prefer to lease our fogging equipment on a contractual basis.

Crebisol x10

Crebisol X 10 uses the latest 21st century technology to produce a non-bleach biocidal disinfectant cleaner that is a complete cleaning, sanitising, disinfection and infection control system.

KILLS & PROTECTS

Certified to kill Coronavirus, MRSA, Superbug, Norovirus and more. Crebisol boasts a Kill Rate of 99.999999%

REMAINS ACTIVE FOR 72 HOURS

after application providing a biofilm when dry

ECO FRIENDLY

CLINICALLY TESTED

Crebisol is clinically tested to meet EN13704:2002 requirements for C-Diff and EN14476:2007 for Norovirus

Eeezee™ Aquazzee

Eeezee™ is the global leader in the hypochlorous acid revolution. Our biocide products harnesses HOCl, a highly effective weak acid that is naturally present in the human immune system.
